This is a "**"ONE TIME MAILING"**"=

which means we will NEVER KNOWINGLY bother you again if you do not Write. The exception might be if some one sends us your name = again. So there is no need of going into an epileptic Fit and write to take your name OFF! It is OFF = unless you Write. This is a "**"ONE TIME MAILING."**"

THE REASON

We are co-operating with PHYLLIS PORTER and SHERRY RILEY of "TRACTS"=is because we have a Mailing List that is not up-to-date = we get too many Returns...each costing us 78¢. So this is an invitation for you to write in and get on our Mailing List for 2 or 3 Mailings. FREE. We will then take it from there.

THIS FIRST TEST MAILING

We do not ordinarily deal much in "HEALTH"=we feel the "HEALTH" Magazines are doing a good Job, and we leave it to them. But we do RECOMMEND certain OUTSTANDING MAGAZINE ARTICLES or BOOKS = from Time to Time. We have known of the "GERSCHEN THERAPY" for a long Time. We also knew of his Daughter carrying on the work = CHARLOTTE YVONNE STRAUSS.

WE CONTACTED

Third Angel's Message believers in AUSTRALIA = and in the exchange of Books and Papers = CAREY ROWLANDSON, PO Box 673, MURWILLUMBAH 2484 AUSTRALIA = sent me this CANCER PAPER by Charlotte Yvonne Strauss = as she gives the History of her Father's work in the Treatment of CANCER.

SO WE THOUGHT EVERYONE

has the Right to know, above all = PREVENTION. It is also our Philosophy that what CURES CANCER...take that BEFORE you get CANCER = and you will never get it. These few pages by STRAUSS = should lead one to Study the Subject more... for the sake of your own Family = Relatives = Friends = and even Enemies. A Local Elder who moved Heaven and Earth to have us DISFELLOWSHIPPED...went from Church Doctor to Church Doctor...tried everything...and could not CURE his "INCURABLE" MUCUS COLITIS STOMACH CONDITION WITH WILLOW CHARCOAL TABLETS that we recommended...I think it was in 30 Days...then he was among those who Yelled:"CRUCIFY HIM!" As he went to the Post Office to stop our Mail...so we had to leave that District. He sent the MOUNTIES AFTER US on the charge of TREASON...because we EXPOSED what Senator Young of OHIO called = in the SATURDAY EVENING POST =

"THE CANNON-BALL CONCEPT" of Civil Defence. The Adventist Church being the ONLY Church in the World that was DUMB ENOUGH to Sign all their Rights and Property over to Civil Defence. To the Army. And since this was an ARMY MAN = this Local Elder thought we ALL must strap on the Ammunition Belt = whenever he said so. NICHOLS got this Church into Civil Defence and Adventists everywhere SIGNED what they do not even know = WHAT they SIGNED! Unless they NOTIFY the GOVERNMENT otherwise = they are still Bound to what they SIGNED...they can RESIGN...but not in the CRISIS.

SENATOR YOUNG OF OHIO

and then a GOVERNOR of another State wrote in the "CORONET" Magazine...EXACTLY what I had said..."GET OUT!" of the CITIES...as the ONLY real Protection. That those who did as Adventists ADVOCATED and DEMONSTRATED from Coast to Coast (Big Heros!) = to "EVACUATE" the Cities...come right out into the Open and get themselves ATOMIZED by the EARLY and WORST of the Radio-Activity...would walk into the Jaws of DEATH! So "EVACUATION" was a "CANNON-BALL CONCEPT"=the ONLY ones to remain alive were those who remained HIDDEN...UNDER COVER...and REFUSED to be "EVACUATED."

THIS CAUSED

A HIRING and a FIRING in the Ranks of "CIVIL DEFENSE." The MOUNTIE could not find me...and some time later I was witness to a Court Case...and I sat 10 feet away from that same Mountie = and he never said: "BOO!" But that local "ELDER" never gave up = he had a "DUTY" to perform...there is no Safety outside of his Commune and Control.

Later they put on a DEMONSTRATION for the Public for "DIET" and "HEALTH REFORM"= WHITE SUGAR...WHITE BUNS...WHITE BREAD...because the Public might not "LIKE" the WHOLE GRAIN. so with their DOCTRINE...serve up what the World WANTS...

THIS HEALTH ARTICLE

deals with "PREVENTION" as the Best way toward off CANCER. We deal in the TRUTH of the Third Angel's Message to ward off being CAUGHT in the 7 Last Plagues...so get on our Mailing List for a while...to see what we were given by the Prophet = as the ONLY WAY to ESCAPE = the Soul you Save = may be your own... there is no CRIME greater than knowing the TRUTH = and REFUSING to pass it on...the ONLY ONES SAVED and SEALED will be those who Sigh and that Cry for "ALL" the "ABOMINATIONS" in the CHURCH..."MARK THIS POINT WITH CARE!" T3:267. Ezekiel 9:....RH A2:49. T5:505. GC 609,656.

**THE TREATMENT OF CANCER**  
By Charlotte Yvonne Strauss

**INTRODUCTION:** ...His daughter has continued his work. She has a clinic in Moscow that people are flooding to from all over the world, when they've tried other remedies and they've not been successful. She is a sympathetic, strong, capable, intelligent person who I think understands what needs to be done in many cases that do not respond to even the natural approaches to cancer. And I would like, at this time to have you welcome Charlotte Yvonne Strauss.

"Some of you have certainly heard last week, the controversy, oh I shouldn't even call it controversy, but the various items in the news concerning diet and cancer. Senator McGovern, who chaired the Senate Select Committee on "Nutrition and Human Needs" finally laced into the N.C.I. after he'd heard a great deal of testimony in the area of nutrition and the connection of nutrition to cancer and the preventive value of proper nutrition and he said; hey, you guys at N.C.I. you spend 800 million dollars on research in various cancer cures and the cancer rate continues to go up and up, yet less than 1% is being spent on research in nutrition. Why don't you look at the preventive area in nutrition?

Now for instance, in July of 1976, a great deal of information began to be presented before this committee - Senate Select Committee on Nutrition and Human Health - on demographic information, studies of groups of people that had the node and that very definitely present the fact that nutrition does have something to do with cancer; that, for instance, those groups that by their religious beliefs do not eat meat, they have approximately a 10% as much colon cancer as people that do eat meat, even though they may be eating the rest of the same junk food. And they have found in very definite studies of large groups of population figures, that Japanese women who do not eat the heavy cholesterol diet and not the heavily damaged and canned and preserved foods that the American women eat, that these Japanese women have a great deal less breast cancer than American women. Yet, when the Japanese women come to America and take up the American habits of eating, their breast cancer rate increases after a very short time, to the same level as that of the Americans. In other words, Senator McGovern says; here is all kinds of

information that food is connected to cancer and especially the prevention of cancer... How come the N.C.I. has devoted less than 1% of their budget to studying food and nutrition and its relation to cancer?

But that wasn't all. In January of 1977, after 6 months of these hearings and studies, the Senate Select Committee issued a little pamphlet called "Dietary Goals for the United States". This little pamphlet incorporates much of the information that was heard before this Committee, and the information states that "Americans would do well and help in preserving their health by doing some of the following things: Cut down their meat consumption; cut out the consumption by children of sweet drinks and sweet bottles of soda, and, on the positive side, increase their food intake of fresh fruit and vegetables and not processed foods. And guess what happened! When this little pamphlet for 99¢ was made available to the public, guess who objected! The A.M.A. Among others, the food industry of course, too because they might be hurt by people cutting out certain preserves and processed foods. But listen to what a spokesman for the A.M.A. came out and said: "The most sweeping attack on these dietary goals however, comes from the American Medical Association. They said that these goals should not be adopted because there is no proof that diet is related to disease". And now comes, "Besides, change in Americans' eating habits might lead to economic dislocation." Whose pocket book could be affected? The food industry or the doctor's if you're healthier. Do you pay your doctor to watch over the American economy? If your doctor claims that food has nothing to do with your health, do you want to continue to see your doctor?

Now, let me tell you a little bit more about the Gerson therapy: -how it ever came to be. My father, Dr. Max Gerson, when he was a young doctor, was suffering from severe migraine. He was so ill, sometimes two or three or more days a week he was lying in a darkened room with these terrible pains in his eyes, vomiting, nauseous, unable to function. And his doctors and professors and tutors said, there's nothing we can do. We don't know anything about it. Look it up yourself. And he decided he'd have to do something about it. It was probably caused by food, that is, something he ate. And he thought that possibly milk might help. Maybe he felt that if an infant can digest milk, he ought to be able to digest milk, and he lived for a while on nothing

but milk and he was very ill. Didn't help him one bit... And then he rethought the problem and it occurred to him that nowhere do adult animals live on milk or drink milk or use milk. It is not good for adults. And he cut out the milk and he decided to try vegetarian materials. He started with apples. Apples were very plentiful in Germany where he lived, and he ate apples and nothing but---apple juice and apple sauce, and raw apples and fresh apples and baked apples and he was fine and then he slowly added piece by piece, bit by bit to this apple diet. He always knew immediately what agreed with him because if it didn't, within half an hour very often, he had a new migraine. So pretty soon he knew exactly **these** and these foods he could eat; they would agree with him; and this and this and this he could not eat. And this he called his migraine diet.

And when, after a while, he established himself in practice, he soon led in terminal and nerve diseases because he had studied under the foremost neurosurgeon in **Germany** Professor Fezda, and then some **person** came to him with a migraine into his office, and he told them frankly, "All the books say there is no cure for migraine and I have migraine too and I'm doing so and so and it's helped me. If you want to, you can try it too." And he found invariably that the patients responded the same as he did and while they they would eat meat and fat and salt and heavy foods and milk. They would get new migraines.

Until one day a person had come to him complaining of migraine and he gave them his migraine diet and after not very long, two or three **weeks** the patient returned to him and reported that he was doing very well. Long as he was sticking to the diet his migraines were gone and they were well, but on top of it he said he also had skin tuberculosis with his migraines, and he said this was also healing, and my father said, "no, that's impossible. This is an incurable disease and it must have been something else." "Oh no" the man **said**. He had laboratory reports and bacteriological studies that this was skin tuberculosis and sure enough here was the reason that it was healing, and my father was flabbergasted because the man who discovered the cause of skin tuberculosis, who discovered that it was incurable, and he had received the Nobel prize for it and here it was incurable, and he had discovered accidentally a cure; but he wasn't sure of it yet so he asked this man again, "Look I'm not even **sure**!" He was not a skin man. "Even though other people do have this disease, it's relatively rare. I'll treat them free.

I just want to see what happens".

And to make a long story short, the man found a bunch of other people whom he knew from his own hospital experience and my father gave them his migraine diet and they recovered from lupus skin tuberculosis. Next thing that happened, he was sued for his licence, did not get the Nobel Prize for discovering a cure, but he was sued because his certificate read Internal and Nerve Diseases, and this is a skin disease, but the judge in those days decided that if somebody knew who actually could prove him doctor. Could you or you or you cure this disease? and they say 'no, it's incurable. No, no, of course not.' "So why, don't you let this guy do it?" And my father got away with his licence at that point.

Anyway, he thought further about the problem and thought that if tuberculosis would respond, skin tuberculosis, possibly other forms of tuberculosis could also be healed. And sure enough he found that lung tuberculosis, kidney tuberculosis, all these other kinds also responded and the people grew well. Then he got a very large group of lung tuberculosis patients that he was going to demonstrate and they all responded well and he discovered that along with the tuberculosis, their asthma disappeared, their migraines disappeared, their high blood pressure, low blood pressure disappeared and their other disturbance disappeared and that's when it really became quite clear to him he was not curing a disease, he was not treating a disease, but he was taking the body as a whole restoring the body's ability to heal itself and once you accomplish that and the body heals a disease, whether you now call it tuberculosis or migraine or high blood pressure, you do not cure the body selectively. Once the body heals itself it will take care of all of the problems and that's how he discovered that arthritis responds and kidney difficulties respond and heart troubles respond and no matter what.

And I'm giving you the story because all of you, all of us, all of the medical profession is very much symptom oriented. If you have a symptom somewhere - in your lower colon or in your upper lungs, then what do you do for the problem in your colon, what do you do for the problem in your head if you have a migraine or the problem in your throat or in ..... It is very difficult to put across to the people in general as well as the medical -- particularly the medical profession - the fact that a total approach of healing the whole body will clear the body of these various diseases. It took my father a

number of additional years before he was first able also to heal cancer, because cancer is a more severe, deeply degenerative problem than the other chronic diseases. And he had to further refine his theory before he was able to also cure cancer.

But the same now goes for cancer. For instance, case number 6 in this book, when he was cured of his pituitary cancer also was cured of syphilis that he'd had without receiving any specific medication for syphilis. Many other cases, along with their cancer, had other trouble; heart disease or asthma or atherosclerosis or arthritis or you name it, doesn't make any difference. The body oes not heal selectively.

We have a case now of a man who had sarcoma in his upper palate--was biopsied--no doubt. He also had very serious heart fibrillations. He couldn't step up one step without going into fibrillations. He also had sinus trouble since he was teenager. He's now in his 60's. He also had arthritis in his spine and severe back pain. He also had no energy whatsoever. He dragged himself from couch to bed and bed to couch. He also had haemorrhoids. His sister had had cancer about three years earlier, had all the operations, was discovered to have cancer in the liver already; decided she would go the orthodox way because she trusted in the wonderful doctors and wonderful modern science, and sure enough after with chemotherapy she was dead. And when the doctors offered this gentleman to take half of his face out to remove the cancer in his palate, he said "No, thank you."

He read this book, "The Gershen Therapy". He is now free of ALL his problems. He has no more sinus trouble, headaches or anything. He has no more heart fibrillations. He's full of energy. He can jump around, run up and down stairs, works in his garden all day, sleeps like a baby all night, has no more back pains or arthritis, and even the haemorrhoids have disappeared. That is total healing. And you cannot achieve that with an operation or with a shot or with a pill, or with any specific approach. If you cut out the face and the sarcoma in his palate, that might have relieved the cancer there for a while but what would it have done for the rest of his body?

Total Healing: When you get the body to reactivate its healing mechanism, the body will heal itself. Now how do you feel?

My father differentiated between general chronic disease and cancer in only one way. He said general chronic disease patients have a weakened, damaged liver, but cancer patients have a weakened, damaged toxic liver. The toxicity makes the difference.

All disease basically begins at the same point. The loss of potassium from the glandular structures of the body. With the loss of potassium, now sodium penetrates the cells. When sodium penetrates the cells a lot of things go wrong. In 1965, six years after my father died, two researchers, Dixon and Webb, found when they studied enzyme production in the body that in order for the enzyme function to take place, the enzyme requires potassium as a catalyst. Sodium, in most cases, acts as an inhibitor to enzyme function. It slows or kills off enzyme production and enzyme activity. Enzymes are needed for anything that goes on in your body, from the moment you take food into your mouth, for anything to be digested, to move down your intestinal tract, to change from the acid to the alkaline, to change from the solid food into liquid to be absorbed through the intestine, then going to go into your bloodstream into your cellular system to be utilised, made into energy, be removed, and so on it goes on and on; thousands of enzymes are needed.

Potassium is needed in the cellular system to help generate enzymes. If you lose the potassium, you get inhibition. Not only that, you get penetration of Sodium into your cells and then you get blockage of enzymes. Alder Warburgh, twice Nobel Prize winner, said and proved that a normal, healthy cell uses oxygen available, when it no longer has the enzyme systems working for dear life, it hangs on and turns to a fermentative metabolism. If the fermentative metabolism persists, the cell is no longer normal and then, Alder Warburgh says and proved that a fermentative cell is a cancer cell. Now it was only proven very recently because these instruments were not available any earlier. It was only shown about two or three months ago by a researcher in the National cancer Institute that in order for the cells to rapidly multiply by uncontrolled mitosis, cell division, the cell requires large amounts of sodium in it. In a normal, healthy body, the sodium gets pumped out of the cell by the sodium-potassium pump. This can only function when you have enough potassium on your serum, in food, in your body supply. A normal, healthy diet of fresh foods, raw food, raw juices, are loaded with potassium and are low in sodium just exactly the way your body requires it.

Now sodium penetrates the cells, inhibits oxydation, and something goes wrong somewhere. If you now call it arteriosclerosis, atherosclerosis, if you call it migraine or kidney trouble or heart trouble or if you call it diabetes or glaucoma or kidney disease or if you call it multiple sclerosis or muscular distrophe, it doesn't matter. The basic problem remains the same, and this is the most difficult thing to get across to you and especially to the doctors. All disease is the same - the loss of potassium from the cells due to the improper nutrition. Therefore blockages of enzymes - toxicity building up. Then due to lack of proper digestion and enzyme production, the food you eat now turns into enzyme blocks and further damaging substances. The fats are no longer digested to the end product and eliminated fully and completely so they accumulate in the body:- they block the arteries or they block further digestion and enzyme activity. If you now call it psoriasis or call it atherosclerosis or call it any other disease it's still a fault in fat metabolism.

And the proteins you ingest in the forms of meat and fish and cheese and eggs are no longer fully digested to the end product and that's the crux of the matter - digested to the end product with sufficient enzyme activity. No longer digested and fully excreted.

Now, what happens when your protein metabolism isn't working right? It could be called arthritis - rheumatoid arthritis - it could be called schizophrenia. It just depends what area of the body is affected, but the basic problem is there and remains the same:- enzyme inhibition, not enough potassium, improper balance in the liver, improper activity, digestive activity, and elimination of the waste products. So it doesn't matter what name you give it. And cancer happens to be the addition of all of these problems:- enzyme inhibition, improper digestion of the cholesterol of fats, improper digestion of the proteins. And the damaged cell that turns into fermetative metabolism loves these poorly digested fats and proteins, and thrives on it and the body doesn't even get it; the tumor gets it and thrives while you lose weight. There's a little more complicated process involved but I can't go into it.

So what do we do to reverse this process? "First of all", Dr. Gersen said, "Detoxify". The liver, now clogged, not only pent up long stored toxic material through all the toxic addition in your food, through smoking and coffee and alcohol and all of the other things, and the enzyme inhibition particularly is one of the most

dangerous things:- Fluoride, that the government puts in our drinking water, and sodium chloride; and all the poisons in the air and the sea and the water and everywhere. First of all "detoxify", because the liver that's so highly toxic doesn't do anything any more. Because normally under usual circumstances, if one of our cellular structures sets down as an autotrophoblast or for some reason no longer functions properly and turns into a fermentative metabolism, there is a back-up system in our bodies that recognizes this as a foreign cell. It's called the "immune system". And the immune system steps in and eats up and destroys these foreign cells, breaks them down, gets rid of them.

So how come you have cancer if this mechanism exists in the body? It's because this one has also failed you. It also requires potassium and enzymes and normal activity of your liver to function. And when these functions are no longer there and the liver is inactive and poisoned, the immune system fails you too, and you have no more defences, then cancer can grow, or anything else can happen. So we have to first of all detoxify the liver so that it can be reactivated, then give it the right materials to work with, and this is the basis of the whole therapy.

We detoxify in several ways. First you flood the body with raw, fresh juices. We give patients fifteen 8-oz. glasses a day of various prepared - freshly prepared every hour - fresh, raw juices. At the same time we institute a very strict method detoxifying all the time, all the time, every 3 or 4 hours, a coffee enema, 5 or 6 or more a day. And immediately pain disappears, the toxic level goes down and the screaming nerves stop screaming and pain goes. People that have come with pain and on Percodan and Morphine and pain killers usually within thirty-six hours are free of pain without any more drugs; because if you give drugs and poison the liver some more, how can you detoxify it, and reactivate it? It's impossible, so we have to get them off the pain killers, but it's not difficult. They're free of pain very quickly.

Detoxify with juices and enemas and feed the body with fresh, raw food, freshly prepared food - over-supply the body with the right kind of food. Not the heavy meats and fats and proteins that the body can not handle. Fresh fruit, fresh vegetables, freshly cooked baked potatoes - it's all exactly outlined in the book. When you do these things and the body becomes reactive again it starts to throw off these poisons and very often the patients have black stools, green stools.

The body throws off the most incredible materials and then they breathe again; and then they have no more pain and then the body begins to heal. It's not that easy. There are disturbances during these periods but since they usually see the results very promptly and they stick it out and they see others that have already recovered or that are in the process of recovering and they encourage each other and that's the beginning. When the matters - the toxic matters - leave the body then the next thing they see is the tumors go down.

We had a very interesting case recently; a man who had been in the Phillipines in the Second World War contracted malaria there and was given the usual drugs - Quinine and Adabrin - and it was more or less under control for many, many years. Finally he got sick and tired of taking the drugs and he quit, and since that time every fall and every spring, usually twice a year, he would have a malarial attack. He would have the chills and the fever and so on, then get over it. Last September he felt one of these attacks coming. He felt Terrible one day. He was going into the chills but strangely enough he did not develop a fever. By November he had the first large melanoma tumor on his shoulder. The body had no longer been able to develop a good fever, - a healing mechanism, an immune reaction. The body had failed him and he did not have a fever. Now cancer can also develop. The cancer was already in his system. No more fever. So he had a tumor on his shoulder, and then it was removed, diagnosed, biopsied, found to be a melanoma so they excised it widely and put a patch of skin from his leg up on his shoulder, and there he was. Fine. We've done it all OK. Only one problem. By the month of March he had a new tumor up a piece on his shoulder and the corner of his neck, this one the size of a large duck egg - hard, angry - biopsied again, melanoma again, now what do you do?

He came to the clinic. We detoxified him very stringent-ly like every body else; gave him the juices, the food, salads, raw food. He was in good shape - he could eat and drink - except for the lump there. The evening of the sixth day, that night he started to run a high fever, 104°, the chills and fever, the whole works. Another night, the second night he ran 103°. By the end of the second night, that was rather, it started on the sixth night so this was the seventh after the start of the therapy. On the eighth day following the second night of fever this enormous lump had gone down to hardly a quarter of an inch. His immune system had been reacti-

the tumor.

Interestingly enough, the patch of skin he had on that other area which had been cold and had had no feeling in it - it hadn't properly healed - another couple of days later had feeling in it and was warm from then on, healed properly. The body's immune system had been reactivated and with it the tumor was gone, almost gone. OK. Now, would you say that this patient was healed? Was he cured? No way! So far all we had achieved was to reactivate the body's immune system and some of the healing, but nobody is HEALED of cancer unless the underlying problem is gone, and this is only the symptom. The lump or the bump or the tumor is only the symptom of all these problems existing, and if we would say OK your lump is gone. You are cured, we would make exactly the same mistake as the doctors make when they say OK I've got it all out, you're cured. You're NOT cured until the underlying problem, the imbalance in the mineral system, the lack of immune response, the imbalance in all the body enzyme activities and hormone systems, unless that is all put back into balance, you are not cured.

Neither was this man cured after eight days. The tumor was almost gone, he was not yet cured. Unless he stays with this therapy and rebuilds his body, reactivates his whole liver, gets a new, good, active healthy liver and all the organs back in good normal balance, this would come back after a few weeks or months. Then we would have made the same mistake as orthodox medicine. Getting rid of the tumor is not curing cancer. Healing means restoring all body systems. But, let me repeat, healing means detoxifying the body and rebuilding the body. Detoxifying alone, like with a fast, is a very nice thing to do but it is not a cure, it is not healing. For instance, you can fast a schizophrenic for 30 days and all his symptoms will be gone and in three weeks, when he starts eating, all his symptoms will come back because you didn't rebuild the body. So once he starts to eat again the problem is still there.

Fasting is only half of the job. It is not rebuilding the body. When you cleanse the body you have to rebuild it. Now let me give you just a little bit of an idea on prevention. If we can heal with food, it's easier to prevent disease. You who are well will do well to remain that way and it's easy if you give your body the right materials to work with.

If at least 75% of your food is live food, fresh food, raw food freshly prepared, organic food that contains all the minerals and enzymes and vitamins that are supposed to be in food and none of the poisons, you can maintain health, you can remain well; you need not become ill, and it's easier, believe me, to go on a therapy when you are going to have to make a fresh glass of juice every hour, 13 hours a day, take 4 or 5 or 6 enemas a day. It's a big job. If you want to preserve life and heal, it's got to be done, but prevention is a lot easier and prevention starts in the cell and prevention starts with the infant with the right feeding - not canned, jarred, poisoned, dead baby food, because only live foods generate life and canned, jarred, prepared, bottled, emulsified, preserved and otherwise processed foods are deadly. They're dead. They do not produce life. They do not sustain life. Not forever. And each new generation of our children are sicker than the previous. Cancer used to be a disease of the 50-60 year olds. Then it became a disease of the 30-year olds. Now it's a disease of the 10-12 year olds and diabetes is increasing at the rate of 6% a year with all the sugar foods and sugar drinks and sweet soft drinks and ice creams and candies and cokes and all of this nonsense, and even the canned, jarred baby foods, the fruits contain 18 - 21% sugar and the \_\_\_\_\_ baby custard contains 42% sugar. Then they're surprised that the kids have diabetes already at 12, 14, 16 years of age. It's a terrible thing.

EXORCISM

The DEVIL is very TRICKY. (1) He will make people SICK. (2) The Adventist Minister or Doctor comes along = does his Best. It does not Work. (3) The "CHARISMATIC PENTECOSTAL HEALER" comes along = or is called in. (4) "SATAN...will (then) SUDDENLY remove from them his SATANIC POWER. They will then be regarded as "HEALED!" SM 2:53. (5) The CHARISMATIC HAL LINDSEY or JIMMY SWAGGART or BOB LARSON is then regarded by the ROY A. ANDERSONS or the J.R.HOFFMANS in SPELL-BOUND AWE! They will almost LITERALLY grovel at the feet of these "MEN OF GOD!" (6) "This SATAN has done again and again...These works of apparent "HEALING" will bring Seventh-day Adventists TO=THE=TEST!" SM 2:53. (7) How will we meet the "TEST?" Does God lend His "POWER" to a HOLY HELL BAAL-PRIEST? This is an "ELIJAH MOVEMENT?" To fall at the feet of JEZEBEL'S or AHAB'S "PRIESTS OF THE GROVE?"

(8) Or should they haul out "ELIJAH'S SWORD?" (Oh! I forgot! MIKE CLUTE says: "GOD DOES NOT DESTROY!" Oh! What a WICKED man ELIJAH was! (9) What does it mean that this Last Message will be given: "...in the Spirit of ELIJAH!" PK 177-89, 716. DA 104, 135. T3:62. GC 606.

[Oh! I forgot! The Adventist Ministry = all across America = "GOD DOES NOT DESTROY! HIS LOVE IS UNLIMITED!"]

-----  
No Wonder those who follow them = become "POSSESSED" by DEMONS! The SOP warned you = YEARS AGO! Listen to the "NEW THEOLOGY"=be CARELESS and INDIFFERENT...how to be CARELESS and INDIFFERENT - listen to BABYLON!

#### WHAT DOES BABYLON TEACH ?

The SAME as the "NEW THEOLOGY"=HEPPENSTALL swung RDB and FTW = GROTHEER and BAUER = "CHARACTER" will be given you = DEAD or ALIVE! When CHRIST-MESSIAH COMES! The SAME as the JW's and HWA.(HERBERT W. ARMSTRONG.) The "THIRD ANGEL'S MESSAGE" is the ONLY ONE that tells us the NEED of BUILDING a "CHARACTER." God supplies the TALENTS - WE build the CHARACTER. (See your INDEX.) Stay home from Church and learn something WORTHWHILE. Then hold Meetings in your own Home...do not worry if FEW COME...who told you that any more than a FEW would "FIND IT!" FROOM=HOUTEFF=ANDERSON=TUCKER= ??? JUDAS ??

What happened to the "LITTLE FLOCK?" Not good enough for you? You see why we send out this "ONE TIME MAILING?" = so we do not waste your Time = and you do not waste ours = do you RECOGNIZE that this is the TRUTH? Then write...and be put on for 2 or 3 Mailings. Even if you are a MINISTER = DOCTOR = NURSE = or an AXE-MAN in the BUSH = or the man behind the Plow...and ESPECIALLY if you are a MOTHER and you do not want your children to grow up BELIEVING=A=LIE! Why see them Lost?

#### WE BELIEVE IN

"PREVENTION!" Do not WAIT until you have CANCER... or HEART TROUBLE...read the Book ANN DeMICHAEL SENT ME. "DOCTOR MORRISON'S AMAZING HEALING FOODS." Parker Pub. House, West Nyack, NY DO NOT WAIT 10994.

Till you are "POSSESSED BY DEMONS" in the Adventist Synagogue of Satan... (Rev.3:9. TM 409.) in this OMEGA HOUR = "GO YE OUT TO MEET HIM!" COL 406. It does NOT

IT DOES NOT SAY = to STAY there until they PUT=YOU=OUT!. It says: "GO YE OUT!" Matt. 25: (NOT verse 1 that was 1844 = verse 6 applies AFTER the "TARRYING TIME!") COL. 406. SUPPOSE some SUPER-PSYCHOLOGIST like FROOM or NICHOLS...should convince you that "SPEWN OUT!" means "GOING THRU!"=DRUGS and ALL = will that change GOD'S MIND? He told NOAH to build an ARK...and their Salvation depended on how they treated that MESSAGE...did God at the last Moment...SAVE them ANYWAY? Or did He keep His Word? Will He keep His Word now? and fulfill T5:211-2? "A MOVEMENT SHALL COME!" GC. 464. We are the ONLY ONES in this World that will go on reading that SAME CHAPTER and show GC 471-3 where the "COUNTERFEIT" Doctrines are LISTED and CATALOGUED for us = do you know what they are? Is your Preacher teaching them? Have a good Look at them. GC 471-3...what do you see = ??? It says: "GO ye OUT!" Because "A COMPANION of FOOLS will be DESTROYED...DESTROYED for want of JUDGMENT!" Prov.13:20,23. "O my people, they which lead thee CAUSE thee to ERR...and THEY that are led of THEM = are DESTROYED!" Isa. 3:12. 9:16.

WE HAVE JUST ABOUT as many as we can handle in our "SPECIAL LIST" = therefore we speak PLAINLY to you = if you like "DUMB DOGS that will not BARK!" T5:211-2. Not even WHIMPER to disturb the WOLF-PACK = then do not write to us...we have no Time to FOOL with FOOLS...go to your own Kind...we want to contact people that are ALIVE! Are in TROUBLE because you DO NOT go along with the sickening "NEW THEOLOGY!" Which is BABYLON THEOLOGY...so much like the World that "NO DIFFERENCE can be seen!"

GOD WANTS PEOPLE = that are DIFFERENT. "DARE" to be a "DANIEL!" DARE to stand "ALONE!"
